About this course

This course empowers learners to enhance both verbal and non-verbal communication skills, crucial in various social care roles and professions. The programme provides valuable insights into effective communication with individuals facing dementia, cultivating empathy and patience. Participants gain a deeper understanding of dementia, enabling compassionate care and practical strategies for interactions, particularly with those who have memory loss challenges. The modules encourage self-reflection and interpersonal skill development, fostering personal growth. This training has been made possible thanks to Greater Manchester Combined Authority securing funding through the UKSPF fund.
